

WHERE HE STANDS

Clean-Cut Declaration of the Political Principles of

HON. JOHN T. MATT

Democratic Candidate for the Legislature—His Fine Record in Session Reviewed.

The Democratic candidate for member of the House of Representatives from this county, who has the endorsement of the Washington, Keystone and Prohibition parties, in compliance with our request, has declared himself in language unequivocal and unmistakable in the following paragraphs:

HON. JOHN T. MATT

"I believe the people and the people only should rule; therefore I am for the initiative, the referendum and the recall.

"I believe that United States Senators should be elected by vote of the people.

"I am against Penrose and Penroseism and any other 'ism' that has been put in it—the people only should rule.

"I am for equalization of taxation and believe that corporations should pay their equal share of taxes; that Express Companies doing business within the state should pay tax on net earnings. At this time they pay no tax at all.

"I am for the protection of our forests and our waterways.

"I am against the granting of eminent domain to individuals or corporations.

"My only answer to why I was endorsed by the Washington, Keystone and Prohibition parties is that I wear no collar of a boss or set of bosses; I am for the people and the people are for me because I serve ALL THE PEOPLE and not one master or four masters."

MR. MATT VOTED FOR—

The Sprout State Highway bill. The Jones Dirt Road bill for the townships. This bill originally carried with it an appropriation of \$2,000,000, which was reduced to \$1,000,000 when it passed and the Governor cut it down to \$500,000, which was an injustice to the townships in which there are no state roads.

The resolution to amend the constitution so as to give the voters of the state a chance to vote on Initiative and Referendum.

The resolution favoring the election of U. S. Senators by popular vote.

The resolution to place the Local Option bill on the House Calendar.

HE VOTED AGAINST—

The bill providing for additional clerks and assistant sergeant-at-arms for the House of Representatives. The defeat of this measure meant a saving of thousands of dollars to the taxpayers.

The Capitol Park Extension bill. By this bill an appropriation of \$200,000 was made to get options and buy a few properties. Mr. Matt says that this park extension will cost the State from five to eight millions, for it takes in about eight squares improved with residences, wholesale and retail business houses and factories, and it is in the centre of the city. This will mean more burden on the taxpayers.

The bill proposing to tax insurance policies.

The bill raising the salary of the Members of the House from \$1,500 to \$2,500 per year. Had this bill passed it would have cost the State \$257,000 more for each session.

The school code. He believed it would be a creator of offices and a tax raiser.

The Judge's Salary Raiser bill. This bill costs the state \$300,000 per year.

The bill to raise the salary of the members of the State Constabulary, which bill provided for raising the salary of Captain from \$2,500 to \$5,000 per year.

The salary raising of the Governor's Private Secretary from \$2,500 to \$5,000 per year. This increase of one official of \$2,500 is more than any farmer in the county can make on a \$20,000 farm by the hardest kind of work.

This partial record of how Mr. Matt voted during his term in the Legislature in the interest of the people and against the raising of taxes.

Woodrow Wilson's Message to the American People

Sea Girt, N. J., Oct. 19, 1912.

To the Voters of America:

I am glad to have an opportunity to state very simply and directly why I am seeking to be elected President of the United States. I feel very deeply that this is not an ambition a man should entertain for his own sake. He must seek to serve a cause, and must know very clearly what cause it is he is seeking to serve.

The cause I am enlisted in lies very plain to my own view: The Government of the United States, as now bound by the policies which have become characteristic of Republican administration in recent years, is not free to serve the whole people impartially, and it ought to be set free. It has been tied up, whether deliberately or merely by unintentional development, with particular interests, which have used their power, both to control the government and to control the industrial development of the country. It must be freed from such entanglements and alliances. Until it is freed, it cannot serve the people as a whole. Until it is freed, it cannot undertake any programme of social and economic betterment, but must be checked and thwarted at every turn by its patrons and masters.

In practically every speech that I make, I put at the front of what I have to say the question of the tariff and the question of the trusts; but not because of any thought of party strategy, because I believe the solution of these questions to lie at the very heart of the bigger question, whether the government shall be free or not. The government is not free because it has granted special favors to particular classes by means of the tariff. The men to whom these special favors have been granted have formed great combinations by which to control enterprise and determine the prices of commodities. They could not have done this had it not been for the tariff. No party, therefore, which does not propose to take away these special favors and prevent monopoly absolutely in the markets of the country sees even so much as the most elementary part of the method by which the government is to be set free.

The control to which tariff legislation has led, both in the field of politics and in the field of business, is what has produced the most odious feature of our present political situation, namely, the absolute domination of powerful bosses. Bosses cannot exist without business alliances. With them politics is hardly distinguishable from business. Bosses maintain their control because they are allied with men who wish their assistance in order to get contracts, in order to obtain special legislative advantages, in order to prevent reforms which will interfere with monopoly or with their enjoyment of special exemptions. Merely as political leaders, not backed by money, not supported by securely entrenched special interests, bosses would be entirely manageable and comparatively powerless. By freeing the government, therefore, we at the same time take the power of the boss. He trades, he does not govern. He arranges, he does not lead. He sets the stage for what the people are to do; he does not act as their agent or servant, but as their director. For him the real business of politics is done under cover.

The same means that will set the government free from the influences which now constantly

control it would set industry free. The enterprise and initiative of all Americans would be substituted for the enterprise and initiative of a small group of them. Economic democracy would take the place of monopoly and selfish management. American industry would have a new buoyancy of hope, a new energy, a new variety. With the restoration of freedom would come the restoration of opportunity.

Moreover, an administration would at last be set up in Washington, and a legislative regime, under which real programmes of social betterment could be undertaken as they cannot now. The government might be serviceable for many things. It might assist in a hundred ways to safeguard the lives and the health and promote the comfort and the happiness of the people; but it can do these things only if its actions be disinterested, only if they respond to public opinion, only if those who lead government see the country as a whole, feel a deep thrill of intimate sympathy with every class and every interest in it, know how to hold an even hand and listen to men of every sort and quality and origin, in taking counsel what is to be done. Interest must not fight against interest. There must be a common understanding and a free action all together.

The reason that I feel justified in appealing to the voters of this country to support the Democratic party at this critical juncture in its affairs is that the leaders of neither of the other parties propose to attack the problem of a free government at its heart. Neither proposes to make a fundamental change in the policy of the government with regard to tariff duties. It is with both of them in respect of the tariff merely a question of more or less, merely a question of lopping off a little here and amending a little there; while with the Democrats it is a question of principle. Their object is to cut every special favor out, and out it out just as fast as it can be cut out without upsetting the business processes of the country. Neither does either of the other parties propose seriously to disturb the supremacy of the trusts. Their only remedy is to accept the trusts and regulate them, notwithstanding the fact that most of the trusts are so constructed as to insure high prices, because they are not based upon efficiency but upon monopoly. Their success lies in control. The competition of more efficient competitors, not loaded down by the debts created when the combinations were made, would embarrass and conquer them. The trusts want the protection of the government, and are likely to get it if either the Republican or the so-called 'Progressive' party prevails.

Surely this is a cause. Surely the questions of the pending election, looked at from this point of view, rise into a cause. They are not merely the debates of a casual party contest. They are the issues of life and death to a nation which must be free in order to be strong. What will patriotic men do?

Woodrow Wilson

APPEAL TO VOTERS

By Hon. A. Mitchell Palmer, National Democratic Committee Chairman.

Harrisburg, Pa., October 29, 1912.

To the Democrats of Pennsylvania:

A careful canvass gives promise of victory on November 5, if your candidates and the cause of liberty, good government and progress in both the State and Nation. The people are tired of a government of arbitrary power and special privilege—a government which has been perpetuated by machine methods and the misuse of money and patronage and has overridden the liberties of the people and ignored their needs. In this state the Republican machine, that "Criminal conspiracy masquerading under the name of the Republican party"—is disrupted. In the struggle of the bosses lies your opportunity. There are no ills in Pennsylvania for which this machine and these bosses are not responsible. Experience has shown that there is no hope of honest government or of true progress under the rule of this machine, no matter who is the boss. It must be destroyed before you can hope for good government.

Though earnest and sincere Republicans who place public good above partisanship are ready and willing to unite with you and redeem the state. The opportunity is here, the power is in your hands. Do not be alarmed by the false prediction of the panic by which partisans are at the eleventh hour seeking to frighten you from the assertion of your rights. Even the head of the Steel Trust himself has publicly declared to his associates that we are enjoying an era of unsurpassed prosperity which is not due to any political policy or efforts, but has come in spite of them because nothing could prevent. Contrast this deliberate declaration of a "Calamity Howling" of political partisans, seeking only a continuance of their own power.

Be true to yourselves and have confidence in the result of a just and righteous cause; stand for self-government against machine rule; stand for arbitrary power; stand for justice and the square deal for all against special privilege; stand for the principles upon which this government rests, that all its powers belong to the people and must be used for the equal good of all. Equal rights for all, special privileges for none. You can now if you will, recover the power of self-government and secure that legislation and administration necessary to restore Pennsylvania to her proper place in the sisterhood of states, and free her from the shame which has been brought upon her. Your country calls you to duty. Your country demands your services. Give at least one day to your citizenship. Go to the Polls and Vote with good men of all parties who stand ready to assist you and place Pennsylvania

nia's name again on the "Keystone of the Arch" which stands for liberty and justice to all men.

In conclusion we desire to express our deep appreciation of the faithful and efficient services of the officers and committees of your party and of your confidence and co-operation in their work. Upon you and your committees rest the final duty of seeing that the vote is polled and honestly counted and returned. Give the day to your country, your liberties, and your rights!

A. Mitchell Palmer,
Nat'l. Committee Chairman of Penna.
George W. Guthrie,
Chairman Penna. State Committee.

Court Notes

Harry J. Fry of Hopewell Township and Charlotte Purry of New Enterprise.

William R. Tenley and Mary Chaney, of Six Mile Run.

Charles Albert Mervetts of McConellsburg and Lucretia Hedges of Six Mile Run.

James Aveni and Reta M. Johnson, of Bedford.

William F. Mowery of Cumberland and Anna (Naugle) Berkhmeier of Colerain.

Wladislaus Novak of Langdonale and Helena Kendru of Six Mile Run.

Accidentally Shot.

Charles E. Light, proprietor of a pool room at Hyndman, is a patient at the Western Maryland Hospital, the result of a bullet wound accidentally inflicted at his pool room about midnight on Saturday. Several men were examining a revolver, when it was discharged while in the hands of Bert Lowery. The bullet entered the side just below the last rib and ploughed its way through to the back. The physicians in charge probed for the ball, took it out, and Mr. Light is getting along nicely. He makes his home with his sister, Mrs. Bertha Evans, at Hyndman.

NEARING THE END

The Political Battle Will Close Next Tuesday When Woodrow Wilson Will Be Elected President of the United States.

Before next week's issue of The Gazette reaches its readers the "battle of the ballots" will have been decided, and from all present indications Woodrow Wilson will have been elected President of the United States.

That Mr. Taft is out of the running is suggested by the attitude of the Roosevelt papers and the organization of the Washington party. The papers and the organization of the new party of which Mr. Roosevelt is the head, have dropped Mr. Taft and trained their guns on Mr. Wilson in an effort to discredit him in the minds of the voters of the nation, by means fair or false.

The Roosevelt papers are not alone in trying to deceive the voters by telling them that Wilson is for free trade; this state has been flooded within the last day or two with post cards sent out from Pittsburgh by William Flinn, Chairman of the State Executive Committee of the Washington party, in which he charges:

"Wilson is the outspoken advocate of a Free Trade policy that will swamp America with the products of the poorly paid labor of the world." Lie No. 1. "He has repudiated all the progressive ideas expressed in the Democratic platform." Lie No. 2. "After Taft he is the choice of the Trusts." Lie No. 3. "A vote for Wilson is a vote for pauper wages and empty dinner pails." Lie No. 4.

That this is a misrepresentation—a lie—is known to those who have read Mr. Wilson's utterances from his speech of acceptance to the present time. For those who have not followed the utterances of the Democratic candidate who stands for reduction of the tariff in an orderly manner without disrupting business by iconoclastic measures, we quote from his utterances:

"We stand in the presence of an awakened nation. Plainly it is a new age. There are two great things to do. One is to set up the rule of justice and right in such matters as the tariff, the regulation of trusts and the prevention of monopoly. The business of government is to separate special and particular interests from the general interests of wide communities. The initial task this year is to get our government in such shape that we can use it for our own purpose, not against anybody in particular, but for everybody in general. We want to establish a real partnership between all the people and the Federal government instead of between special interests and the Federal government. We must effect a great readjustment and get the forces of the whole people once more into play.

"The tariff question, as dealt with in our time, has not been business. It has been politics. The tariff has become a system of favors. Tariff schedules have been determined in committee rooms and conferences. The tariff becomes a matter of legitimate business only when the understanding it represents is between the leaders of Congress and the whole people of the United States, instead of between the leaders of Congress and small groups of manufacturers demanding special recognition and consideration. That is the heart of the whole affair. It is at bottom a question of good faith and morals.

"Our conviction as Democrats is that the only legitimate object of tariff duties is to raise revenue for the support of the government. We denounce the Payne-Aldrich Tariff Act as the most conspicuous example ever afforded of the special favors of monopolistic advantages which the leaders of the Republican party have so often shown themselves willing to extend to those to whom they looked for campaign contributions. The changes which we make should be made only at such a rate and in such a way as will least interfere with the normal and healthful course of commerce and manufacture. There should be an immediate revision downward. It should begin with the schedules most obviously used to kill competition and raise prices in the United States, and should be extended to every item which affords opportunity for monopoly and special advantage, until special favors shall have been absolutely withdrawn and our laws of taxation transformed from a system of governmental patronage into a system of just and reasonable charges which shall fall where they will create the least burden."

Creswell for Auditor General

Robert E. Creswell, the nominee of the Democrats of Pennsylvania for Auditor General, is known to many Democrats of this county as honest and fearless. He may be depended upon to do his full duty, and the voters may feel assured that no questionable bills will pass him without careful scrutiny, and unreasonable and unjust ones will not receive his sanction.

William H. Berry for State Treasurer

William H. Berry demonstrated his ability and integrity when he was State Treasurer of Pennsylvania. It was through him that the capitol grafters were brought to justice and placed behind prison bars. He needs no comment; the voters of the state know his record, and on his record he asks to again be placed in charge

of the funds of the state. He was faithful before and will be again.

The Democratic candidates for "Congressman-at-Large" merit your support; they are clean and able and may be expected to render a good account of themselves in the House of Representatives.

Bailey for Congress

The candidate for the member of Congress from this district nominated by the Democrats stands head and shoulders above the other two who seek the place. He has battled long and faithfully for the interests of the common people and against the interests of the trusts and combines which have been enabled to amass fortunes at the expense of the laboring classes.

The present representative of this district in Congress, Jesse Hartman, has stood with and voted for the interests of the "privileged class"—the trusts and the combines—at every opportunity, and the papers of the Penrose gang that are supporting him speak of him as "a good fellow," but fail to cite an instance of his having voted in the interest of the masses. They are hiding his record. He is the Penrose-Reynolds candidate, and it will be remembered that he sent \$1,500.00 to one man in this county, as "Chairman of the Congressional Committee" to secure his nomination. He is a boddler and has no record which the papers that advocate his election care to print. Vote for a man of ability—Mr. Bailey.

State Legislature

For the State Legislature the Democrats have nominated Hon. John T. Matt because of his record in the last House of Representatives. He stands upon his record in that session. Fearless and honest, he kept his every pre-election pledge. His record secured for him a second nomination, and the fact that the Prohibitionists and the Washington party endorsed him is a high compliment. He can be trusted by any and all parties to do his duty and keep any pledges he makes, and he has the backbone to speak and contend for what he believes to be right; he need not be expected to do any "complimentary" voting because of "friendship of the family."

Mr. Matt's opponent, J. Anson Wright, is closely allied with the "local annex" of the Penrose state machine. Mr. Penrose doesn't care who is County Commissioner or Bedford County or County Treasurer but he does care who goes to the Legislature. The Penroses are making every possible effort to elect Mr. Wright. Shall the choice of Mr. Penrose and his "local annex" be your choice? Send Matt back; he wears the collar of no boss as he records there at the last session proved!

Mr. Wright, in addition to being closely allied with the "local annex" and the Penrose machine harbors in his breast peculiar notions on the tax question as pointed out last week. Collector Bowser was exonerated from collecting borough and water taxes from Mr. Wright in 1904, he having refused to pay the same. Mr. Wright's friends now say that Mr. Wright was worth it and that Mr. Bowser should have collected it. In the appended statement Mr. Bowser, who is, it is true, a Democrat, states that he made "repeated demands" but "payment was refused." Owners of real estate in Bedford pay their borough and water taxes both on their real estate and their occupation, and there is no reason why one serving in the exalted position of Superintendent of the schools of the county should refuse to bear his share of the burden to provide water, light and police protection to himself and family while others in the common walks of life pay the same without a murmur.

In the following statement Mr. Bowser refutes the statement of Mr. Wright's friends who are exclaiming him on the ground that he did not know of these taxes, ridiculous as the statement is:

Mr. Bowser's Statement

This is to certify that I was the Tax Collector having in charge the collection of the various taxes assessed in the Borough of Bedford for the year 1904; that I made repeated demands on Prof. J. Anson Wright for the payment of \$2.45, borough and water taxes, assessed against him that year and payment was refused by him, and that subsequently he was exonerated from the payment of the same by the Borough Council.

Frank Bowser, Collector.

Bedford, Pa., October 31, 1912.

There is no good reason why any Democrat should cut a single name from the ticket of support. Every candidate is worthy of support, and if the Democrats stand firm, with the help that will come from independent voters, the ticket will be elected from Wilson to Matt. Turn out on Tuesday and do your full duty!

Give one day to your party, your county, your state and your country.

The record of Hon. John T. Matt in the last session of the Legislature is an open book. He kept his every pledge, and he merits the support of the voters of the county.

LOOK AT THE FACTS

The Work of the Democratic House
Should Elect

DEMOCRATIC CANDIDATES

President Taft's Vetoes Prevented
Reduction in Tariff Duties and
in Cost of Living.

Washington, October 29.—If the American people wish to give credit to whom credit is due, they ought to support the Democratic candidates for Congress, and thus place their stamp of approval on the record of the House of Representatives.

Since January 1, 1912, a Democratic House has passed tariff bills which would have reduced the high cost of living \$650,000,000 a year.

Every bill which in the slightest degree provided relief for the masses was vetoed by the President.

The Farmers' Free List bill, passed by the House, would have saved the people \$390,000,000 annually. This bill removed the duty from agricultural implements, of which \$86,000,000 worth were exported and only \$165,000 worth were imported during the last fiscal year; sewing machines, fence wire, bagging and cotton ties, lumber, laths, shingles, meats, flour, salt, leather, shoes, etc.

Under our tariff law a barrel of flour valued at \$4 abroad is taxed 25 per cent. ad valorem at our ports, or \$1 on the barrel. This bill removed the entire tax.

Beef valued at \$5.30 per 100 pounds abroad pays a tariff tax equivalent to 25.88 per cent., or 1.50 per 100 pounds. This bill proposed to remove this entire tax.

The Democratic wool bill proposed to reduce the average rate of duty on wool manufactures from 90.10 per cent. to 48.36 per cent. President Taft's veto of this measure means that the American people will pay \$50,000,000 more for their clothes this year than they would have paid if President Taft had signed it.

A wool hat valued at \$1 abroad and taxed 78 cents upon its entry into the United States, under the present tariff law, would have been taxed only 49 cents.

Flannel underwear valued at \$27 per dozen suits is taxed under the present law at the equivalent ad valorem rate of about 106 per cent. The Democratic bill proposed to reduce this to 49 per cent. A suit of ready-made woolen clothing worth in Europe \$10 is taxed under the present law at the equivalent ad valorem rate of 75 per cent., or \$7.50. The Democratic bill proposed to reduce this tax from 75 to 49 per cent. and save the consumer \$2.60 per suit.

The cotton bill reduced the duties on cotton manufactures from 48.12 per cent. to 27.08 per cent., a reduction of the tariff burdens under this schedule from not less than \$200,000,000 to about \$122,000,000 for a year, or a saving of about \$88,000,000 for a twelve-month period.

Men's cotton half hose valued at 80 cents per dozen pairs wholesale are taxed under the present law at the equivalent ad valorem rate of about 92 per cent. The Democratic cotton bill proposed to reduce this to 40 per cent.

It proposed to reduce the tax on cotton thread from an equivalent rate of 34 per cent. to 15 per cent. A suit of ready-made cotton clothing valued at the foreign port at \$6 is taxed under our present law 50 per cent. ad valorem, or \$3 a suit. This Democratic bill proposed to reduce this tax to 30 per cent. and save the consumer \$1.20 per suit.

The bill revising the metal schedule reduced the average rate of duty on the entire schedule from 33.35 per cent. (imports of 1910) to 22.42 per cent. This revision, it is estimated, would have saved the American consumers in a twelve-month period more than \$80,000,000.

The revision of the chemical schedule would have effected a saving to American consumers of about \$17,000,000 by reducing the price of all chemicals and at the same time the revenue to the Government would have been increased.

The bill placing sugar on the free list would have saved during a year not less than \$115,000,000 to the consumer. The tariff tax on sugar amounts to about 1½ cents per pound. The amount of sugar consumed in continental United States in 1911 was about 7,683,000,000 pounds, and the application of 1½ cents per pound to this consumption affords the estimate of \$115,000,000 as representing the saving to the people.

The House passed a bill providing for an excise tax on incomes, thereby transferring a considerable portion of the tax burdens to the wealthy, which are escaping their proper proportion.

The Excise Tax bill passed by the House provides for the extension of the Corporation Tax law so as to include individuals, firms and corporations. It accomplishes the very desirable purpose of transferring tax burdens from those less able to carry them to the shoulders of the wealthy, who have heretofore escaped from a proper share of taxation for the support of the Government.

The present burden of indirect taxation falls upon people having incomes of less than \$2,000 per year. A man whose net earnings amount to but \$5,000 per year would under this bill pay no tax. A man earning \$10,000 per year would pay nothing on the first \$5,000 and \$50 per year on the second \$5,000.

Defiance

[Held over from last week.] October 22.—The Misses Mobus are home again from Altoona, where they had sojourned with friends for several weeks.

Tuesday morning of this week seemed to be a fire morning, as about 2 a. m. the storeroom of Thomas Fox on Main Street was discovered to be on fire. This was discovered in time to prevent any serious loss. About four hours later there was fire discovered in Robert McIntyre's house, due to a defective flue, and now some of our superstitious mothers are just sure we will have a third fire. There was even less damage done to Mr. McIntyre's building than to Mr. Fox's.

The High School Orchestra will hold a festival in Little Hall Wednesday, October 30, for the purpose of raising money with which to purchase music.

John Henry Little was a business visitor to Bedford on Monday of this week.

Thomas McCabe is having a splendid stable erected on his lot on Main Street. Frank Oaks of Riddlesburg is doing the carpenter work.

Mrs. Benton Cessna of Saxton was at the home of her parents, Mr. and Mrs. G. W. Taylor, over Sunday.

The Defiance Sextette sang at the Rally services for the Church of God at Coaldale last Sunday.

HECKERMAN LETTER

Interesting Article on Pleasures and Sorrows of Life.

Knoxville, Tenn., October 22, 1912. This is the third largest city of this state. It is one of the prohibition states and I know of no more flagrant violation of any law made by man than is the liquor law in this city. However, for fear of leaving a wrong impression in the minds of many of your readers as to my standing on the liquor question, I shall desist from further comments.

This city is growing rapidly. Last night Gay Street, the principal street, was crowded with all colors of the human family. The university boys had a night shirt parade, which was amusing. A drum corps led and the students, arranged as to size, came in single-file, each holding to the tail of the night shirt of the one ahead of him. Every little while during the march they would halt and give the college yell with a vengeance.

I have been under the weather for a few days, but am not much better, and start north tomorrow morning at 4:30. I want to get back and shall not look backward, if I can avoid it, for with most of us life is a succession of troubles, fears and fading memories. We constantly remember the troubles of the past, but forget that we have survived them. My, how I remember, when a small boy, how sorrowful I became over some loved toy that was lost or broken, but as I grew older 'twas not so much so. As we grow older the storehouse of the mind is filled with memories of the past, yet with whole trainloads of thoughts of those little sad things that so worried us in our younger days.

One and all of us are prone to plaintive lamentations over the departed pleasures, loves and hopes, which we did not appreciate or even enjoy with the right kind of zest, while we had them to enjoy. We forget, as we go journeying along life's path, that whatever disasters we may have had, we have been brought through disaster or difficulty and may reasonably hope to overcome or cope with these same things again.

Looking back over the road we have traveled in getting to our present milestone in life, most of us can recall times when darkness and clouds seemed to surround us. Look as we would there seemed no way of escape. Desolation and dread stared us in the face. We probably believed that our peace with God and our fellowman was at an end and that there was no more for us but endless suffering. That was just my fix when recently I imagined that my left leg was a silent member of my body.

The school boy who fails in his lessons at school feels, that by his failure, he has been disgraced forever. He suffers in his own mind just as much in proportion as to the gravity of the case as President Taft will on November 6, 1912. Again, the man in business, who loses his job or is closed by the sheriff is sure in his own mind, that of all, he is the most unhappy, that his heart is broken and all is lost. Yet he goes on as we all do and with the passing of the years, we look back on these things, on some of them, smiling at our own weakness and folly, whilst on others with sorrow that has perhaps made them more beautiful. Time after time with brighter eyes many things have been wrought to our good by looking through the dark and colored glass. Many a young man grown old, seems at the end of his journey to be a shrewd or a spendthrift, who, no doubt, would have spoiled all his happiness, yet the man and woman take the next disappointment to heart and renew their sufferings all over again.

Let us all forget that if pleasures are fleeting so are troubles; that all which looks dark and lowering to us today may be a huge joke tomorrow. We forget the mercy that has been shown us, the good fortune that has come to us and the strength we have been enabled to gather from all these things. If you and I cannot gain and retain confidences, as we journey along and gather experience, then life and all we have labored for, are useless and wasted. Then let us gather strength and apply our brains and courage and remember that disasters are rarely beyond repair; that there never was a disaster but might have been greater. There are very few who have reached middle age, but have had troubles. Probably there never was a man or woman, a boy or girl, who has done or tried to do anything in the world, who has not known times of despair. Let each one of us look back along the way we have come, even to our childhood and youth. Yes, each one can recall troubles which to us in those days looked as serious and deadly as any which confront us now. Let each of us review and study the part we see how gallantly we have overcome it and we can endure and conquer all that befalls us in the future. The happiness we have known is ours; no one can take it away, and memory should beautify and illuminate it, removing therefrom all that might tend to mar.

Yours truly,

M. P. Heckerman.

Rainsburg

[Held over from last week.]

October 22.—After an absence of about eight years, spent in traveling over the United States, Earnest, son of Mr. and Mrs. George Williams, returned home on Saturday.

On Saturday Dr. Fawcett of this place accompanied Mrs. Henry Shoemaker and Mrs. Grant Diehl to the Western Maryland Hospital, Cumberland, where they will undergo operations.

Richard Hall of Echo Vale and Mr. and Mrs. Guy Blymyer, of Bedford, were visitors in our village today.

The stork passed through our town leaving at the home of Bert Miller, our genial blacksmith, a baby girl on Friday, and on Saturday a bouncing big boy at the home of Mr. and Mrs. Philip Morgart.

The Reformed Church was crowded Sunday evening to hear the trial sermon preached by Rev. Hefflinger of Martinsburg. Mr. Hefflinger is a man of pleasing personality and a fine pulpit orator. The Reformed people would be fortunate to secure him as their pastor.

James H. Gump and John T. Cessna made a business trip to Bedford today.

Isaac Boor of Cumberland Valley visited at the home of Mrs. M. C. Sparks on Sunday.

Frank P. Shaffer was called to Ohio on Tuesday to attend the funeral of his brother Jacob, a former Bedford County boy.

On Sunday Miss Louise Hite gave a dinner in honor of the birthday anniversary of her mother, Mrs. L. W. Hite. A few invited friends were present.

Today while cutting corn to feed her chickens, Mrs. Zora Koonitz of near Rainsburg accidentally cut the end of one finger entirely off and a gash in another finger of her three-year-old baby boy. Dr. H. C. Lessig rendered surgical aid.

W. A. Cessna and D. J. Filler are transacting business in Cumberland this week.

Valentine Miller is very ill. Mr. and Mrs. H. C. Metzler, after spending three weeks in Fulton County visiting friends, returned home on Monday.

EVERYONE NEEDS IT

Ed. D. Heckerman is Having a Wonderful Sale of Thompson's Barosma, the Mighty Kidney and Liver Specific.

And no wonder, when he offers to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, backache, sideache, nervousness or any weakness of the kidneys. But Thompson's Barosma has made so many almost miraculous cures that Ed. D. Heckerman is pretty certain not to have any returns.

Here are a few instances: Frank K. Sturges, Sturtevant, Crawford County, Pa., was cured of Bright's disease six years ago and only took six bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."—M. S. Langworthy, Tyrone, Pa.

After suffering the terrible agony of rheumatism for ten years, being compelled to use crutches, J. N. Duman, River Center, Pa., after all hope had left him, and he had no faith in any remedy, took six bottles of Thompson's Barosma, threw away his crutches and went to work for the first time in ten years.

These statements are absolutely true, and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts? How can they suffer when Ed. D. Heckerman guarantees to refund the money if a cure is not effected? Thompson's Barosma, 50 cents and \$1.00 a bottle. All druggists.

Penna. Ed. Association

The Pennsylvania State Educational Association, which will hold its annual session in Harrisburg during holiday week, promises to be largely attended. The Educational Council of this Association is at work upon a report which will help to clear the educational atmosphere with respect to some troublesome questions now before the teachers of the country. It proposes to make a fearless inquiry into the matter of studies, the methods of instruction and the methods of administration. It will favor a thorough revision of elementary courses of study, especially in arithmetic, English, history and culture studies. It will discuss in detail the methods by which pupils are to be assisted in the choice of a vocation. Former President F. W. Robbins, Superintendent of Lebanon schools, is the president of this Council.

Spraying Plants with Electrified Water

Electrifying water for use in irrigating plants has brought promising results in a crop test by the inventor this past summer, excellent yields of vegetables being obtained in very poor soil on Long Island, says the November Popular Mechanics Magazine. The discovery is an evolution from efforts to kill locusts by spraying. The original apparatus was erected in Argentina, the inventor being spurred to success not only by the rewards offered by the government but by the suffering of the people through the destruction of their crops by huge swarms of locusts. When the locusts had been effectually disposed of, there was suggested the utilization of the same apparatus for spraying the plants with water, and when success followed this work, the inventor found that much greater crops could be obtained by electrifying the water and this he proceeded to do with remarkable results.

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been cured, to those who are in need of it.

In an interview on the subject a prominent local druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows immediate results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

The success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

A free trial bottle will be sent by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. Regular size bottles sold at all druggists—50c and \$1.00. Oct. 25-4t. Advertisement.

Your Lungs and Throat.

The preparation mentioned by the Rev. Chas. Sager has been for over sixty years of incalculable worth to sufferers from consumption, asthma, bronchitis, catarrh, grippe, coughs, colds and all lung and throat diseases, and is a household remedy in many, many homes to which it has brought health and happiness.

Mr. C. A. ABBOTT, 60 Ann St., New York City. Dear Sir: I have known for over 40 years of the effects of Wilson's Remedy (Wilson's Preparation of Hypophosphites and Biotin) in cases of pulmonary troubles. At this point I will say to you what you have not before known of, that 4 years since while I was a resident of N. Y. City, I was severely ill with lung trouble. Physicians said I was a consumptive and my family physician told my wife that he thought I could not recover. My attention was directed to the Wilson Remedy, which I used with splendid effect. I have been on my feet and at work ever since my cure. Yours truly, C. A. ABBOTT.

THE WANAMAKER PROSPERITY PLEA

Fallacies of His Argument Dissected in Counter Appeal to Merchants.

FREE TRADE NOT PROPOSED.

Panics Occur Without Regard to Tariff Revision—Business Men Directing the Wilson Campaign.

To the Merchants and Business Men of the United States:

Mr. John Wanamaker has issued a "note of warning" against the "destruction of industries" which he says will follow the election of Woodrow Wilson. To hark back twenty years in American industry is to deal with ancient history. During this score of years American industries have advanced so far in competing power that a comparison even with 1890 is ridiculous. In that year our exports of manufactures were less than two hundred millions in annual value; today they are at the rate of twelve hundred millions, a gain of 600 per cent.

How is disaster to come from the competition on our ground of those manufacturers with whom we are successfully competing on their ground? It is a poor time to cry distress when we are exporting steel manufactures at the rate of a million dollars daily.

During Mr. Cleveland's first administration, 1885 to 1889, there was no panic—there was only prosperity. But Mr. Wanamaker forgets this. Mr. Harrison, a Republican, succeeded in 1889, serving till 1893. During this time Mr. Wanamaker himself was in President Harrison's cabinet, and it was then the conditions matured which resulted in the panic of 1893, four months after Mr. Cleveland took office the second time.

Mr. Wanamaker quotes from various sources certain records of distress, but neglects to say that every one of them bears a date not less than six months before the tariff bill of 1894 became a law and, as a matter of fact, before its terms were known.

The truth is that neither a Republican administration nor a high tariff is any protection against panics, and they occur, as everybody knows, except Mr. Wanamaker, quite without regard to tariff changes. Our very worst panics have occurred under Republican administrations.

In 1903 the Republican party in its platform declared "unequivocally" for the revision of the tariff, but this promise, soon so recklessly broken, had no deterrent effect upon improvement in business conditions. It cannot therefore be said that the mere threat of tariff revision causes distress, for there was no doubt in 1903 not only that the tariff was to be revised, but that it was to be revised downward.

Ignoring the Present.

Most important, however, in Mr. Wanamaker's letter is his failure to refer to existing conditions. He promises all sorts of disaster in a very general way, but has nothing to say about current facts of industry. For example, it has been well known since 1910 that the public demanded the downward revision of the tariff which Mr. Taft promised and later denied. A Democratic house of representatives was elected in 1910 on that special issue. That house passed a series of tariff measures, some of them over the president's veto. On each of these measures a number of Progressive Republicans voted with the Democrats. One of these bills reduced the duty on steel. Yet, although a revision of the steel schedule was and is pending, the steel industry has revived, prices are advancing and, strangest of all, from Mr. Wanamaker's point of view, large investments are now being made in new steel plants.

If the danger that Mr. Wanamaker foresees is real how is it that these investments proceed? How is it that manufacturers all over the country are increasing their plants?

Mr. Wanamaker seems ignorant also of the actual labor conditions. High wages are not necessarily a sign of prosperity. As Professor Fisher points out, a century and a half ago laborers in Rhode Island received a wage of \$10 daily, but it took four days' work to buy a pair of shoes. Nor are high wages a sign of the protective tariff. The Lawrence strike brought out this fact vividly. There the textile manufacturers have a very high protective tariff to favor them, but the wages of their employees were shown to be indefensibly low. A fair comparison is that between England and Germany, both thickly populated, one having no protection and the other high protection. How do wages stand in these countries today? Those in Germany are 17 per cent lower than English wages, and not only so, but the cost of living in Germany is 17 per cent higher, so that the protected German workman earns the smaller wage and pays the higher cost.

Free Trade Bogey.

Is it not truly ridiculous for Mr. Wanamaker to raise the bogey of free trade? No party advocates that. Mr. Wanamaker must know that the Democratic cotton and woolen bills are not free trade measures in any sense. The fact is that the Republican plat-

form of 1908 as well as the Democratic platform of 1908 declared for a revision of the tariff. It seems to me that the only question before the American people now is, Who will give that the downward revision for which they made a new demand in 1910, when a Democratic congress was overwhelmingly elected? It is clear that the only man in the race who will stand for an intelligent revision downward is Woodrow Wilson and the only party which will give it is the Democratic party.

Is Not to Destroy.

Finally, it bears strongly on Mr. Wanamaker's statement to note that the Democratic campaign is largely in the hands of business men. I cannot claim the distinction of being a merchant, yet I hope I can qualify as a business man. Certainly I should hesitate to advocate the adoption of any policy or to ask my friends to follow the leadership of any man or party likely in any way to bring harm to the people of this country. It would be easy to add the names of distinguished manufacturers all over the land who are in active co-operation with the Democratic national committee in this campaign. These men, having great business interests at stake, are not likely to be deceived into promoting their own destruction. They feel, as do many others of our leading manufacturers, that the Democratic party in promising a gradual revision of the tariff is helping and not hindering our industries. Governor Wilson has frankly said:

"I am not interested in disturbing the great course of business in this country, but I am interested in enriching it." W. G. M'ADOO.

New York, Oct. 12.

IT IS UP TO YOU!

The freeborn citizen gets up when dew is on the grass
And sees himself reflected in a trust made looking glass.
A trust controls the soap he finds at length upon the stand,
And through the favor of some trust he takes his comb in hand.

His shoes, suspenders, shirt and socks, the buttons on his coat,
His handkerchief, his necktie and the collar round his throat
All came from factories that trusts permit to operate;
A trust allows him to have coal to pile upon the grate.

By yielding to the sugar trust he makes his coffee sweet;
By bowing to the beef trust he may have a steak to eat;
The cracker trust, the flour trust, the coffee trust, likewise,
Take tribute from the man who dwells where freedom's banner flies.

He rises from the table which a trust leaves in his care
And on the trust made hall tree finds a trust made hat to wear.
Now see the freeborn citizen upon the trust owned car;
By paying tribute he may ride to where his duties are.

He sits before a trust made desk—a trust has said he may—
And, being free and equal, he tells the trust all day;
At night a trust provides his light, and when his prayers are said
The uncrowned king devoutly kneels beside a trust made bed.

Thus all his trust's bound up in trust that treat him as they please.
He lives through favor of the trusts; them he bends his knees.
Ah, let us trust that when he dies a leaves this world of care
Some trust will waft him to the skies a give him glory there.

"The Thanksgiving Matinee" by Virginia Tracy in Scribner's, is a story of the artistic temperament as manifested by an actor and his wife; and "His Own Country," by H. H. Bashford, tells of how a young English doctor came back to his own through a great blizzard in the Northwest.

"Tells the Whole Story"

To say that Foley's Honey & Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops la grippe, coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, and accept no substitutes. Ed. D. Heckerman.

Outing For November
Charles Johnson Post, traveler and artist, has contributed to the November Outing the narrative of a former pilgrimage, "On Andean Trails." There are various practical articles of value and timely interest: "On the Portage," Dillon Wallace; "Money From Sheep," R. B. Sando; "Common Sense in Camping," Charles Askins; "The Golden Acre," by A. Rutledge; and so forth.
Walter Camp's story of the "Making of a Football Team" depicts in a direct, straightforward manner the inside workings of the system of drilling and coaching which finally places the pick of the University on the field ready for heroic service when the big game of the season arrives. There is the usual interesting selection of photographs and drawings. Cover design by Henry Soulen. The Outing Magazine, all news-stands, 25 cents; subscription, \$3.00.

Gazette Publishing Co.,
Bedford, Pa.

FRIDAY MORNING, NOV. 1, 1912.

Do you know of any act of Jesse Hartman in the interests of the people while he was in Congress that would justify your voting for him? If he did anything of the sort the papers supporting him would name it.

But suppose that Mr. Wright had captured the endorsement of the Washington party; would the Inquirer now condemn him because of the fact? Does the Inquirer, the paper that declared itself to stand for "party right or wrong," not realize that the endorsement of Mr. Matt by several parties is a compliment to him as a member of the last House, and an endorsement of his record?

Has anybody seen any reference in any paper supporting Jesse Hartman for Congress to anything that he did in the last session for the benefit of the plain people? The Inquirer said last week: "As a Republican he has served his party loyally," but it fails to cite an instance in which he served the people by his vote. This is O. K. from the standpoint of a paper that has declared "for party right or wrong," but is Mr. Hartman worthy of any confidence on the part of those who believe that a Congressman should vote and speak in the interests of the plain people? Consider his record, which the papers supporting him fail to recite. He was a tool of the "Machine." Shall he be returned or shall Mr. Bailey, a representative of all the people be sent to Washington?

MR. WRIGHT'S CASE

Our contemporary, the Bedford Inquirer, in its last issue devoted much space to showing by letters and replies why Mr. Wright was not endorsed by the Washington party for the Legislature. He was dealing with Mr. Wasson, according to the letters quoted, and not with Mr. Flinn or the local representative of the Washington party, B. F. Madore, Esq. Mr. Wright surely knew that the party that nominated Mr. Roosevelt at Chicago had cut loose from the Republican party in Pennsylvania and that the new party was represented by Mr. Flinn of Pittsburgh, the County Chairman in this county being Mr. Madore. With these gentlemen he had no communication. If he had succeeded in getting on the ticket of the Washington party through Mr. Wasson, would the Inquirer still condemn Mr. Matt because of his having been endorsed by parties other than the one that nominated him?

NO BIDS!

On Tuesday of next week you will vote upon a ballot printed without the Commissioners' knowing what they are to cost, at least a few days ago the writer was told in the Commissioners' office by the president of the board that the contract had been let but no price fixed.

Last year the same paper that is now printing the ballots for the election on Tuesday printed the ballots for the primary and received \$300 for the work, though the bill was not handed in until after the fall election so that the graft could be exposed before the new board of Commissioners was elected, and the ballots for the fall election last year cost \$249.50 (printed by the Inquirer), making a total of \$549.50 for the two sets, while they would have been printed by The Gazette, had the bids asked for by that board been allowed to stand, for \$222.50, a saving to the taxpayers of \$327.50. Mr. Taxpayer, how does this look to you? And the cost of the ballots you'll use on Tuesday is not yet known!

ONLY IN GANG PAPERS

We print as news in this issue the Prothonotary's account, the notices of the Register and Recorder and the Sheriff's sales, in brief form, as the papers of the "annex of the gang" alone are authorized to print them and are paid for so doing.

But this county is not alone in so doing. The proposed amendments to the constitution, which have been printed 13 times, have been inserted in only the "annex" organs of this county. The state officials, like the

county officials, are thus rewarding the "loyal" papers—those that have adopted the motto printed by one of them: "For party right or wrong," and at the same time attempting to silence those papers that could not be "brought into line" by threats, of which The Gazette is one.

All this may be right but it does not seem right to us that Democratic voters should thus be discriminated against by a state machine and its "local annex." One thing is certain: the Democrats will not be deprived from voting when the \$50,000,000 bond issue authorized by the proposed amendments come up for the decision of the electors of the state. The proposed amendments were printed some weeks ago as news in this paper. The proposed amendments will not be voted on until next year.

THE SOUP HOUSE SCARE

In the presidential campaign of four years ago which resulted in the election of Mr. Taft there was little talk of "soup houses." It would have been useless for voters at that time all remembered the preceding year—1907 and its panic, and it is an insult to the intelligence of American voters for Republican papers and orators today to tell them that "panics come in Democratic administrations," for the youngest voter of today was old enough in 1907 to remember that the Republicans were in full control of the government at that time; and the average voter knows enough of his country's history to know that the Republicans were also in full control in 1873—before, during and after the panic of that date.

In the 1908 campaign the Republican platform recognized the necessity of tariff revision and promised it and the paper and orators of that party promised that the revision would be downward. On that plea President Taft was elected, but he and his party proved faithless to the people and the tariff law passed was first apologized for by the President and afterwards lauded. This more than any other one thing is responsible for the political condition of the nation today.

But having enacted a "robber" bill into a law, the standpatners well knew that the people would not accept another promise, lest it be broken as was the one in 1908; hence they are now in the open defending the present law and endeavoring to cloud the issues by howling "soup houses," and blaming them on the Democratic party.

The panics of 1873 and 1907 came and spent themselves under Republican rule—from the latter we are just now fully recovering, and the panic of 1893 was equally due to Republican legislation—the Silver Purchasing Act of the Harrison administration.

In verification of this statement we reproduce here an article from the Public Ledger (Philadelphia) of May 6, 1904.

There has been nothing in our political history more disheartening or more despicable than the disposition of presumably respectable politicians to represent as the result of Democratic policy the awful crisis through which the Cleveland administration, with extraordinary courage and skill, carried the credit of the country in 1893 and the following years. This is not the ordinary license of partisan discussion. It is the deliberate falsification of history, the more dangerous and inexcusable because it obscures those relations of cause and effect which it is essential to the public safety to keep distinctly in mind. The crisis of 1893 was the logical and inevitable sequel of the silver legislation of 1891, and the Sherman act was a Republican, not a Democratic, measure. The crisis was foreseen by sound-money men, but Congress would do nothing to avert it, and the Harrison administration only contrived, by the expedient of postponing payments and making temporary loans, to bridge over the space till the new administration should come in. By that time the drain of gold from the Treasury had become apparent; the silver flood had risen to an overwhelming height and the nation was on the very verge of sinking to the level of the South American States and paying its obligations in a debased coinage worth 60 cents on the dollar.

A less courageous President would have accepted the conditions as he found them and left the responsibility to Congress. Not so Mr. Cleveland. He was determined that the credit of the nation should be preserved at whatever cost, and when Congress refused or deferred the measures of relief which common sense dictated, he used the powers conferred on him by previous legislation, and with enormous difficulties and with consummate skill he kept the Treasury supplied with gold until the panic passed. His persistence had compelled the repeal of the Sherman act, and by the patriotic co-operation of great financial interests the gold standard was maintained. The administration which followed succeeded to the fruits of Cleveland's good management, as he had succeeded to the evil fruits matured under his predecessor, and there was nothing left for the Republicans to do but accept the situation—and take the credit which did not belong to them.

This assumption of undeserved credit might be allowed to pass if it were not accompanied, as it has been, by lying abuse of the administration to which the country is indebted for the preservation of its financial credit under extraordinary stress.

WILLIAM JENNINGS BRYAN WRITES A CORDIAL LETTER IN INTEREST OF W. W. BAILEY

Says if He Could Visit District He Would Commend Democratic Nominee for Splendid Fitness and Urge His Election in the Interest of Wilson

En route, October 22, 1912.

Hon. Warren Worth Bailey,

Johnstown, Pa.

My dear Mr. Bailey:

I regret exceedingly that my trip through Pennsylvania would not bring me into your District. I am not responsible for the arrangement and did not know until Sunday what places I was going to visit.

I have been on the road five weeks and have had nothing to do with the arranging of the details for my trip. Had I been in a position to select the points to be visited, there is no District that I would have gone into more gladly than into yours.

I am not only anxious to see you elected to Congress, but among the nearly four hundred candidates running for Congress on the Democratic ticket, there is not one who has my confidence more completely or who would, in my judgment, make a more faithful representative of the people. You have more than usual ability; but ability is not the most important quality in a Congressman. We have lots of ability in public life, but a great deal of it is employed against the people's interest. You have moral courage—that is essential in a Congressman, and yet it is not the most essential thing, for some of the Congressmen have courage to stand out against what the people want. Above all, and most important of all, your heart is right. You sympathize with the people in their struggle to improve conditions, and you look at public questions from the standpoint of the masses rather than the standpoint of the few. The people need you in Congress more than you need the office.

If I were able to go into your District, I would not only commend you because of your splendid fitness for the place, but I would urge your election on the ground that a presidential victory, without a Senate and Congress to help him, would be an incomplete victory.

Success to you.

Yours very truly,

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Roosevelt's Nomination

Mr. Bryan says: Six hundred and sixty-seven thousand dollars is the amount spent to secure delegations for Roosevelt in the states that have thus far reported, and more than half are yet to be heard from. The demand for Roosevelt's nomination was said to be overwhelming, but it was evidently held in solution, and it cost more than a million dollars to precipitate and make it visible at the primaries. It was the most expensive chemical experiment ever made.

The word being passed along the Republican line is "Save the Legislature for Penrose."

The New Party

Mr. Roosevelt appeals to progressives to join his party. Roosevelt's whole record demonstrates that he has no constructive power; that he is progressive only in words; that he is ever ready to compromise in order to win, regardless of platform promises or progressive principles. He will not last. In the end the people of this country will get his true measure. No party will ever successfully organize about a man.—La Follette's Magazine.

The election of Warren Worth Bailey to Congress will make sure of one vote for the reduction of tariff to reasonable percentages, but the return of Jesse Hartman will give the trusts one member on which they can count—such was his record in the last Congress and such will be his record in the next if he is returned. He is the Penrose candidate.

Robert E. Cresswell is known to many voters of this section as a man of ability and of integrity. His election to the office of Auditor General will insure strict accounting and questionable bills will not pass him.

Mrs. Sara L. Waters

Mrs. Sara Louise, widow of the late Samuel Waters, died at her home on West John Street, Bedford, on Sunday, October 27, of a complication of diseases, aged 70 years, five months and three days. She was a daughter of Daniel and Margaret Smith and was born in Bedford Township May 24, 1842. One son and three daughters survive: William, Margaret, Nannie and Etta, also one brother, Jacob Smith, ten grandchildren and one great-grandchild.

The funeral services were conducted at the late residence Wednesday afternoon, October 30, by Rev. R. W. Illingworth, pastor of the Presbyterian Church. Interment was made in the Bedford Cemetery.

Wolfburg M. E. Charge

J. R. Melroy, Pastor Sunday, November 3—Wolfburg: Sunday School 9:15; preaching service 10:15 a. m. Trans Run: Preaching service 2:30 p. m.; Epworth League service 7 p. m. Rainsburg: Class meeting 6:45; preaching service 7:15 p. m.

The close relation of J. Anson Wright with Hon. John M. Reynolds and the fact that other aspirants for the nomination were told to "wait" by the boss of the annex easily leads by the logical mind to the conclusion that Mr. Wright is the candidate of the "annex" and of the state Penrose Machine.

Daniel J. Wagner

Daniel J. Wagner died at the home of his nephew, George Rock, of New Buena Vista on Thursday, October 24, aged 78 years. He was a veteran of the Civil War and until about a year ago was a resident of Buckstown, Somerset County. He is survived by one brother, John Wagner, and a twin sister, Mrs. Mary Whisker, both of Johnstown.

The funeral service was conducted in the Lutheran Church at Buckstown on Saturday, October 26, by Rev. G. K. Allen of Hooversville. Interment was made in the Buckstown Cemetery.

Mrs. Henry B. Hoffman

Mrs. Henry B. Hoffman died at her home at Woodbury Wednesday evening, October 23, after a lingering illness of several years. She was a daughter of Joseph H. and Mary Wagner and was born at Lewistown August 14, 1864. She is survived by her husband and four sons: Durbin C., of Altoona, Joseph W., Earl H. and Nason, of Woodbury, and one brother, Bert F., of Henrietta.

The funeral services were conducted Saturday morning, October 26, in the M. E. Church at Woodbury by Rev. J. A. Mattern. Interment was made in Dry Hill Cemetery.

The Way to Kill An Alligator

Is to pump it full of lead. It won't curl up and die if you bombard it with cream puffs.

The way to kill a political machine is to lop off its head and then pull up its roots. You can't damage a gang by howling at it during the campaign and then voting for its candidates.

Penrose is the head of the political machine that has dominated this state. His head is in the basket.

There are a lot of men, however, who want to take the Penrose head and pull it back on the Penrose shoulders.

In every county those men constitute the roots of the gang cancer.

They are the George Wertzes and the Jesse Hartmans.

They are the men who have done the pulling and hauling for Penrose.

Kill them off and the machine withers and dies. Rally around them and the gang goes marching on.

I have tried to make it plain that those who approve of the Taft administration should not vote for me for Congressman for the Nineteenth Congressional District. They should cast their votes for Jesse Hartman.

But those who don't approve of the Taft administration cannot consistently vote for Hartman. He supported it at every turn. There were Republicans who tried to force the President to keep his tariff pledges.

Hartman was not one of them.

There were Republican Congressmen who believed that the tariff should be revised downward in accordance with the party pledges.

Hartman was not one of them.

The man who finds the cost of living high and enjoys the discovery should shake hands with Jesse Hartman, for that man approves a program that Hartman supported.

That's not an idle campaign.

It's a fact.

I would like to have you look over Jesse Hartman's record. If you find he has really represented YOU, vote for him. You would be foolish not to.

If after you have studied the matter you find he did not represent you, why, cast your vote for.

Hunter Shot by Farmer

While Shalee Howser of Jeanette and William Lane of Youngwood were hunting blackbirds on a farm near the latter place a few days ago, Howser was wounded in the chest and left arm by a bullet said to have been fired by the occupant of the farm. He is a native of Everett and is a well known baseball player and athlete.

Newspaper Criticism

The suggestion that the assailant was led to make the attack on Roosevelt because of newspaper criticism, is a far-fetched one. I have been a careful reader of the papers since last June, and I am quite sure that the Taft papers have been no more bitter in their assaults upon Mr. Roosevelt, than the Roosevelt papers have been in their assaults upon Mr. Taft, and neither side has attacked the other with more virulence than both have attacked the Democrats in campaigns past.—(From Mr. Bryan's speech at Indianapolis October 16, 1912.)

The Coughs of Children

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.

Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

Children Cry FOR FLETCHER'S CASTORIA

The New Boots and Shoes

The new boots and shoes show a decided tendency to avoid the freakish, both in shape and materials. That they also show consideration of comfort, as well as grace, is another cheering item. Shoe education is making much the same advance as corset education, and suggestions garnered from the specialists are being incorporated into regular lines. Fashion may—does in fact—call for pointed toes, but the educated manufacturer knows feet of flesh and blood as well as he knows wooden lasts, and he artistically widens and rounds the toe so that we may follow Fashion—in comfort. To be correctly shod this winter a woman must wear boots—no slippers or pumps—on the street, even with her most elaborate calling gowns. This seems the most ordinary sort of common-sense, but last winter the rule was so woefully transgressed that Fashion, in the cause of good taste and general fitness, feels called upon to emphasize it this year. Young women who display gauze stockings and pumps this winter will incur criticism, not only in the name of health, but also of Fashion—perhaps the latter will be a more potent authority. "The Winter Fashions in Shoes and Stockings," in The Ladies' World for November.

BLOCKADED

Every Household in Bedford Should Know How to Resist It.

If your back aches because the kidneys are blocked, You should help the kidneys with their work. Doan's Kidney Pills are especially for weak kidneys. Recommended by thousands—here's testimony from this vicinity. John A. Topper, Clarence St., Hyndman, Pa., says: "I can recommend Doan's Kidney Pills, knowing from personal experience that they are a remedy of great merit. Some two years ago when I was suffering from disordered kidneys, I took Doan's Kidney Pills and they brought me great relief from my aches and pain. At that time a member of my family told of my experience in a public statement and I now confirm all she then said about Doan's Kidney Pills. They are certainly an excellent kidney medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

CRY WOLF! WOLF! TO SCARE VOTERS

Standpat Managers Depending on Prosperity Plea to Turn Tide to Taft.

DEMOCRATS MUST BE ALERT.

National Chairman McCombs Calls Attention of Wilson Supporters to Necessity of Meeting This Unjust Attack.

Democratic National committee, New York, Oct. 15, 1912.

My Dear Democratic Friend and Co-worker:

The success of the Democratic ticket on Nov. 5 is dependent wholly upon the activities of you loyal working Democrats. And we are depending upon you with absolute confidence. I know that the responsibilities are heavy, but I further know that the results will justify this confidence which we place in you. The way to attain the most effective results is to have each voting district so thoroughly organized that every Democratic voter will be brought to the polls on election day and will vote the Democratic ticket. When elections are lost to the Democrats it is generally because the Democratic vote has not been brought out. Will you surely see to it that all your Democrats vote this year?

Senator Gore, who is chairman of the organization bureau of the national committee, is delighted and enthusiastic about the way the real Democratic workers are getting into the harness, and he feels this same dependence and confidence in you.

"Wolf, Wolf!"

I take the liberty of calling your attention to a line of attack on us that is being used by the Republicans, and I urge you to guard against and to counteract in your district. They are raising the false and wholly unfounded charge that Democratic success will mean business depression. To show you one way in which they are attempting this line of fooling the voters I quote a few sentences from a letter recently got out from their Chicago headquarters which they are now sending the business firms:

"The campaign now in progress has a direct personal interest for you. Upon its result depends the maintenance of the present business prosperity which the country is enjoying. Why sacrifice present prosperity for uncertainty and depression, which a tariff for revenue only would certainly bring?"

That these suggestions are wholly false and are wickedly made to fool the people is evidenced by the fact that with the election a very short time off and with almost every reader and thinker and political observer believing that Wilson and Marshall will be elected, yet practically every line of business is showing extremely marked activity. The railroads are placing heavy orders for new rails and equipment, and their earnings are running ahead of last year by many millions of dollars monthly, wholesale houses are having tremendous demands for goods, the steel mills and factories are full of orders, and bank clearings show heavy gains all over the country. This intense business activity is due to the fact that the business world knows Governor Wilson will do just what he says he will do. His record is one of complete fulfillment of his promises. All well posted business men know that Governor Wilson's election will help rather than disturb business, because they have absolute confidence that he means every word of it when he says:

"WE DON'T WANT TO DISTURB THE INDUSTRY OF THE COUNTRY. * * * THE CHANGES (IN THE TARIFF) WHICH WE MAKE SHOULD BE MADE ONLY AT SUCH A RATE AND IN SUCH A WAY AS WILL LEAST INTERFERE WITH THE NORMAL AND HEALTHFUL COURSE OF COMMERCE AND MANUFACTURE."

To Fool the Voter.

I call your special attention to the fact of these evident conditions of heavy business in the face of the very apparent election of Wilson and Marshall. What does this mean? Simply that the legitimate business world knows that the election of the Democratic ticket means continual and unprecedented prosperity, yet in spite of this the Republican managers make this wicked attack, which, if it has any effect at all, can be only to fool the voters and to create worry and hardship in the minds of some of the people where there is no basis for any feeling except that of happy anticipation of better things to come when our candidates are elected.

Give special attention to this line of attack in order that you may meet it and overcome its effects. They are writing these letters, putting their advertisements in the papers and magazines and on the billboards with the unholy purpose of falsely scaring people into voting the Republican ticket.

Please let me know at once if these attacks are having any influence among the people or in any of the communities where you have had occasion to observe.

I myself and the national committee

YOUR RHEUMATISM

is probably due to uric acid in the system—the blood must be purified—the poisonous acid driven out and general health must be improved.

Thousands testify that Scott's Emulsion rids the system of poisonous acid by enriching the impoverished blood, and its concentrated nourishment is converted into red blood corpuscles which drive out rheumatism.

It is especially valuable to aged people.

Scott & Bowne, Bloomfield, N. J., 15-60

want to co-operate with you, and we want you to help us bring about the greatest Democratic victory this country has ever seen. We do this with the full knowledge that Democratic victory will mean greater business prosperity, greater demands for wage earners and greater opportunities for every person in our nation, with the exception of those who are now enjoying special and unfair privileges under the law. Sincerely yours,

WILLIAM F. MCCOMBS, Chairman Democratic National Committee.

NUGGETS FROM WOODROW WILSON'S SPEECHES.

The Republican party doesn't propose to change any of the essential conditions which mark our present difficulties.

Mr. Roosevelt proposes in his platform not to abolish monopoly, but to take it under the legal protection of the government and to regulate it, to take the very men into partnership who have been making it impossible to carry out these great programs by which all of us wish to help the people.

We don't want to disturb the industry of the country, but to destroy the control over the industry of other people which these men have established and which makes it impossible that we should give ourselves a free field of service.

Tariff schedules have been made for the purpose of keeping as large a number as possible of the rich and influential manufacturers of the country in a good humor with the Republican party which desired their constant financial help.

The Republican party has practically fostered the trusts. The Democratic party proposes to prevent monopoly, and the third party proposes to take monopoly into partnership with the government by accepting it as an inevitable necessity and bringing it under the regulation of law, making it a legalized institution.

Senate and House Committee Meetings to Gather Information

The Joint Committee of the Senate and House of Representatives of the Commonwealth of Pennsylvania to consider and report upon a revision of the corporation and revenue laws of the Commonwealth, will hold public meetings, in Philadelphia on November 12th, at Room 496 City Hall, Broad and Market Streets; in Pittsburgh on November 29th and 30th, in the Chamber of Commerce; in Erie on November 21st in the Chamber of Commerce; and in Scranton on November 22nd in the Lackawanna County Court House. Meetings will commence at 11 a. m. All persons interested are invited to attend and express their views and offer suggestions as to the necessity for new laws or amendment of present laws relating to the state's revenue, or to corporations.

The committee desire to be informed at once of the name and address of anyone desiring to appear before them. All requests should be sent to Francis Shunk Brown, Counsel, 1065 Morris Building, Philadelphia. Jas. F. Woodward, Secretary.

Schenectady, N. Y. Edward S. Wagner had a most satisfactory experience from the use of Foley's Money and Tar Compound. He says: "The cold got on my chest and I was in a serious condition. After taking Foley's Money and Tar Compound for three days I was all over my cold and felt fine. I know it will help others as it has me." Ed. D. Heckerman, Advertisement.

DANGER AHEAD! SIGNAL'S A FAKE

Republican Circular Warning Railroad Men Is Palpable False Alarm.

EASY TO MAKE FIGURES LIE.

Old Trick of Setting Red Lights on a Clear Track—Facts Presented So Railroad Men May Judge.

The Republican national committee is distributing circulars among railroad men predicting a panic and hard times in the event of Democratic victory. Among their statements intended to mislead railroad men is this:

RAILROAD MEN, STOP! LOOK! LISTEN! LEST YOU FORGET \$71,338,673.

Big sum of money, isn't it? Nevertheless it's exactly that much more paid to the railroad employees of the United States under the administration of President Taft in 1910 than was paid in 1907, the year before Mr. Taft became president.

This is a sample of the old time Republican habit of claiming credit for all natural progress—credit even for good crops.

It is true that in 1910 the wages of railroad employees amounted to some \$71,000,000 more than in 1907.

But that represented three years' progress.

In 1906 the amount paid to railroad employees was \$600,801,653. In 1907 it was \$1,072,380,427. This was an increase of \$471,578,774 in a single year preceding the Taft administration, amounting to more than double the increase during three years of the Taft administration.

Isn't it obvious that they are presuming you won't have the statistics at hand to inform yourself and that therefore they will fool you into believing that the Taft administration made railroad men's prosperity?

Then stop, look, listen again!

In four years preceding Taft's administration 1,193 miles of railroad were sold under foreclosure. The stocks and bonds of these roads amounted to \$47,081,000.

Under three years of the Taft administration 5,115 miles were foreclosed, involving \$384,431,562.

The Tariff Humbug Again. A still more palpable presumption by Republicans that railroad men are fools is the following statement in their circular:

The total number of railway employees in 1895 was 785,034.

The total number of railway employees in 1911 was 1,699,809.

Under Republican administration the number of railway employees has increased from 785,034 during a Democratic administration to 1,699,809, an increase of 914,775, nearly 1,000,000 men.

Do you want a Democratic president and return to the conditions and number of employees of 1895?

The Taft people take 1895 because the last Democratic low tariff bill, known as the Wilson bill, went into force in 1894, and they would like to have railroad men believe that a Democratic tariff revision made the hard times.

What the Facts Prove.

Now, what are the facts?

The "hard times" began back in 1890, right after the Republican high tariff, known as the McKinley tariff, went into effect. Grover Cleveland, the last Democratic president, was elected in 1892. The panic came on in 1893, not as a result of Cleveland's election, but as a result of conditions that had been growing steadily worse under Republican rule. The panic was over before the Democratic tariff bill was passed in 1894, and after that prosperity began to return.

Now let us make a fair comparison of these railroad figures.

In 1893, under the Republican high tariff, and with the panic on, there were 873,602 railroad men employed, or 515 per 100 miles.

In 1894, part high tariff and part low tariff, the number fell to 779,608, or 444 for 100 miles—decrease 71 per 100 miles.

From this year on, so long as the Democratic administration was in power, conditions improved steadily.

In 1895 the total number of railroad men at work was increased to 785,034.

In 1896 it was 826,620.

In 1897 McKinley came into the presidency, and the Republicans set about to "redeem the country" with high tariff. AND IN 1897 THE TOTAL NUMBER OF RAILROAD EMPLOYEES FELL OFF TO 823,476.

Republican Panic of 1907.

Then in the fall of 1907 there was another panic under the Roosevelt administration and under a Republican high tariff. Were the railroad men protected from loss of jobs? Scarcely! The next year, 1908, the number of railroad employees fell off by 285,790, a decrease of 112 per 100 miles against 71 per 100 miles in 1894, the year when the results of the panic of 1893 were felt most severely.

So what is the use of trying to make fools of railroad men or of any other Americans by distorting figures? The truth is that these fluctuations were not due to high tariff or low tariff.

The program of the new party legalizes monopolies and systematically subordinates workingmen to them and to plans made by the government both with regard to employment and with regard to labor.—Woodrow Wilson.
